

Environmental security in watersheds : the Sea of Azov

Lagutov, Viktor, editor

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20402026&lokasi=lokal>

Abstrak

The book is an attempt to initiate a comprehensive environmental security assessment in the basin of the Azov Sea, shared by Russia and Ukraine. At the same time there is an alarming degradation rate of basin freshwater ecosystems that has occurred due to overutilization of certain prioritized services (e.g. transportation). In addition to the review of the current status of Azov ecosystem services, the authors analyze likely future availability and challenges. The relevant experience derived from basin management of the Black Sea and other similar basins is also discussed.
