### Abstrak

[Religiusitas dan toleransi sering menjadi bahasan yang memiliki keterkaitan. Di sisi lain, bahasan agama dan keagamaan sering dihindari karena ada kecenderungan untuk menerima nilai agama dengan apa adanya. Pada dasarnya, penelitian ini ingin melihat bagaimana religiusitas mempengaruhi toleransi mahasiswa di empat fakultas, dengan menggunakan pendekatan sequential explanatory mix methodology dengan mendahulukan penelitian kuantitatif, disusul dengan penelitian kualitatif. Penelitian ini mendapati bahwa terdapat hubungan negatif antara religiusitas toleransi. Salah satu hal yang mempengaruhi hubungan negatif tersebut adalah adanya peran-peran dari organisasi keagamaan yang memiliki nilai-nilai yang cenderung bertentangan dengan sikap toleransi.;

Religiosity and tolerance are two topics that often seen as interrelated. But on the other hand, the topics of religion and/or religiosity are often avoided due to the tendency to take religious values for granted. This research mainly aims to see on how religiosity affects university student's tolerance using sequential explanatory mix methodology approach with quantitative approach prioritized, followed by a qualitative approach. This research mainly finds that religiosity do negatively affects student's tolerance. This research also finds that religious organization plays a role on having and shaping students with values which are opposites with the values of tolerance, Religiosity and tolerance are two topics that often seen as interrelated.
