## Abstrak

[<b>ABSTRAK</b><br>

Tesis ini membahas mengenai penempatan Calon TKI nurse dan careworker di Jepang yang merupakan salah satu kebijakan pemerintah Indonesia dan Jepang dalam program Government to Government/antarpemerintah dalam kerangka IJEPA. Penelitian ini adalah penelitian deskriptif dengan metode studi pustaka, kualitatif dan wawancara kepada narasumber yang bertujuan untuk mengetahui masalah-masalah dan dampak yang terjadi dalam kebijakan program penempatan ini.

Hasil penelitian menyarankan bahwa pemerintah Indonesia dan Jepang perlu menjalankan komitmen masing-masing agar pelaksanaan penempatan calon TKI di Jepang dapat berjalan sesuai dengan harapan kedua negara dan calon TKI itu sendiri. Kualitas calon TKI harus ditingkatkan khususnya keterampilan berbahasa Jepang guna menjadi registered nurse dan certified careworker di Jepang.

Pemerintahan kedua negara juga harus memberikan penjelasan yang sebenarbenarnya terkait pra, masa dan purna penempatan yang antara lain meliputi penjelasan upah kerja, tugas calon TKI dan jenjang karir.

<b>ABSTRACT</b><br>

The focus of this study is the placement of Indonesian nurse and careworker candidate in Japan which is one of Indonesia and Japan's policy in the program of Government to Government on the frame of Indonesia Japan Economic Partnership Agreement (IJEPA). This research is descriptive research using literature and interview to the informant that aims to identify the issues and impacts that occur in this placement program policies.

The researcher suggests that the government of Indonesia and Japan need to perform their commitment for the implementation of the placement so it can work in accordance with the expectation of both countries and the Indonesian candidate themselves. The quality of the candidate should be improved, especially for Japanese language so they can be able to be a registered nurse and certified careworker in Japan. Governments of both countries should also provide explanations related pre, period and after placement which includes explanations wages, their duties and career.;The focus of this study is the placement of Indonesian nurse and careworker candidate in Japan which is one of Indonesia and Japan's policy in the program of
