Meskipun fakta memperlihatkan bahwa pertukaran people-to-people dalam hubungan antar-selat yang terus meningkat secara signifikan nyatanya tidak juga mengakhiri kebuntuan politik diantara Cina dan Taiwan. Diplomasi koersif Cina dalam kebijakan antar-selat digunakan sebagai alat diplomasi Cina untuk memaksa Taiwan menerima prinsip one-China dan melakukan reunifikasi melalui formula one country, two systems. Dalam prakteknya, diplomasi koersif yang dilakukan Cina tidak selalu mengalami kesuksesan. Tesis ini membahas kegagalan diplomasi koersif Cina terhadap Taiwan pada periode pemerintahan Lee Teng-hui (1995-2000) melalui analisa studi kasus komparasi yang difokuskan pada kegagalan diplomasi koersif Cina pada kasus krisis antar-selat 1995-96 dan keberhasilan penggunaan diplomasi koersif Cina terhadap Taiwan pada masa pemerintahan Chen Shui-bian pada kasus reformasi pro-kemerdekaan 2003-04.
