

Geospatial techniques managing environmental resources

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20405398&lokasi=lokal>

Abstrak

This volume presents case studies and examples from various parts of the world and provides a broad overview of various approaches, data sets, data acquiring, monitoring and dissemination methods, satellites and sensors; tools and techniques used, integrating tools, techniques and application to various fields for the sustainable management of environmental resources in the context of global environmental change and natural hazards. All the chapters are peer-reviewed and evaluated and are an inter- and multi-disciplinary source of information, making an effort to link various geospatial techniques to make the earth an habitable place.
