

Paleontology in ecology and conservation

Louys, Julien, editor

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20405544&lokasi=lokal>

Abstrak

The book is to demonstrate how palaeontological data has been or could be incorporated into ecological or conservation scientific studies. This book written by palaeontologists for modern ecologists and conservation scientists. Manuscripts will fall into one (or a combination) of four broad categories, case studies, review articles, practical considerations and future directions.
