## NMR of proteins and small biomolecules

Guang, Zhu, editor

Deskripsi Lengkap: https://lib.ui.ac.id/detail?id=20405954&lokasi=lokal

Abstrak

This book about application of NMR and molecular docking in structure-based drug discovery, NMR as a unique tool in assessment and complex determination of weak protein-protein Interactions, the use of residual dipolar coupling in studying proteins by NMR, studies of metalloproteins, recent developments in 15N NMR relaxation studies that probe protein backbone dynamics, contemporary methods in structure determination of membrane proteins by solution NMR, protein structure determination by solid-state NMR, and dynamic nuclear polarization : new methodology and applications.
