

Fluorescent proteins II : application of fluorescent protein technology

Gregor Jung, editor

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20406120&lokasi=lokal>

Abstrak

Fluorescent Proteins II highlights the physicochemical and biophysical aspects of fluorescent protein technology beyond imaging. It is tailored to meet the needs of physicists, chemists and biologists who are interested in the fundamental properties of fluorescent proteins, while also focussing on specific applications. The implementations described are cutting-edge studies and exemplify how the physical and chemical properties of fluorescent proteins can stimulate novel findings in life sciences.
