

Optimalisasi katalog online

Maks Agustinus

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20406586&lokasi=lokal>

Abstrak

The development of information technology has prompted traditional catalogue to become online catalogue (OPAC). Since OPAC is mostly developed on the basis of traditional catalogue, it solely puts the text version of the traditional catalogue to online. Instead, visual information can also be provided online easily. The recommendation to add several visual features in OPAC is expected to make it more useful for users. Survey shows that the additional features are expected by users to be available in OPAC.
