

Pengembangan fasilitas wisata Taman Kawah Gunung Tangkuban Perahu, Kabupaten Bandung, Jawa Barat

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20406633&lokasi=lokal>

Abstrak

Tangkuban Perahu mount crater is the most popular tourist attraction in West Java. It is easily accessible by car to reach the crater. However, the present development does not reflect the needs of tourist for a better facilitation as a tourist object. Some of the facilities seem have been abandoned for a long time, that grass had grown wildly and left the place without any care. On the other hand, tourists still need more space and facilities to accommodate their activities. This seems to be unfortunate for the object that nobody care about it. The demands for improvement from visiting tourists continuously growing but the idea satisfy their needs seem far away. Now it is the time for the management to re-thinking this matter carefully. Whether they will fulfill the tourist needs nor ignore it, and the consequence is very clear, tourist will try to find another object to satisfy their needs.
