Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20406700&lokasi=lokal>

Abstrak

The number of digital natives is growing in exponential manner. In Indonesia, they are those who were born in 1995 afterwards. They live with digital technologies centered at the Internet, speak their own "language", and developing identities differ from those of their parents. These include preferences in finding and using information that do not fit existing library system built over the old paradigm of analog world.
