

Kajian ekivalensi mobil penumpang pada tipikal jalan antar kota empat lajur dua arah terbagi

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20406843&lokasi=lokal>

Abstrak

Evaluation of road performance needs updated information about the value of traffic parameters, relationship of parameters, and equivalence value. This information is also beneficial in the effort of updating road capacity manual. It aims to estimate model of the relationship of traffic parameters and to evaluate the value of passenger car equivalence on four-lane-two-way-divided interurban road.
