

Influence of silver catalyst on bio-dissolution of sulfide gold ores from Gunung Papandayan

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20407067&lokasi=lokal>

Abstrak

The dissolution of copper in biological leaching system can be accelerated by trace addition of Ag_2SO_4 as a catalyst. In the system, percent of copper extraction increases from 4,32% to 54.24% in 40 ppm of catalyst addition after six days of leaching.
