Abstrak

Teaching is perceived as a very heavy duty, but for other, teaching is the art and full charity. Teacher is really person who teach pupil to rich the best life. But, in turn, public does not care to the teaching profession. New generation are seemingly are not interested to enter the profession. Improsperity of teacher's life is the main factors of public's undesirable to the teaching profession. This is the problem. Based on the phenomena or raelity, there are many ways produced to solve the problem. One of them is Public Regulation of Teaching Profession (UU No.14 Th.2005 Tentang Guru dan Dosen). We realize that regulation is not the more solution. We recommend that teacher's personality and performance have to improve to the ideal one and it is the important way to solve.
