

Law reform in the field of mining: several challenges and problems

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20407162&lokasi=lokal>

Abstrak

Because of the rapid changes in technology, money and capital markets and international competition, a mining law system that is appropriate to one period or one era may not be appropriate for other period or era. This paper will examine the mining laws and regulations whether the rule are still appropriate both for national and mining enterprises interest or not.
