

Environmentally sound technologies applied in ZImbabwean mining and ore processing industries: Zicosteel taken as a case study

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20407319&lokasi=lokal>

Abstrak

In line with world environmentally friendly industry campaign, Ziscosteel has tried to manage all waste caused by their activities. The treatment include incineration, biological treatment, and emission control at coke ovens. Other parameters monitored are water matrix and air matrix. Ziscosteel has successfully done pollution control program.
