

Analisis kerjasama sipil-miiter dalam bantuan kemanusiaan di Indonesia

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20407600&lokasi=lokal>

Abstrak

This paper discusses the mechanism of civil-military cooperation in humanitarian assistance in Indonesia with the influence factors of the process. Research is done by using qualitative method to describe the process and force field analysis as the tool. It describes the process of civil-military cooperation from planning, preparation, implementation and evaluation. It suggests to make regulation regarding TNI's task in MOOTW, regulation of civil-military cooperation, allocation of TNI's budget and the guidelines of response.
