

Strategic alignment antara strategi bisnis dan strategi sistem informasi

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20407780&lokasi=lokal>

Abstrak

This study examines the impact of alignment on perceived business performance using Miles and Snow's popular classification of Defender, Analyzer, and Prospector in business strategies. Profiles for the business strategies are developed using Venkataman (1989). Theoretical profiles for the strategiee companies are developed using four types of system, namely operational support sysem, market information system, strategic decision support system. The selected companies for the study come from five different types of industry, namely bank, manufacturing companies, insurance companies, hospitals, and leasing companies.
