Abstrak

The study to get the perspektif of the moro people in the Philippines islands, specifically members of MAPEA (Maguindanaon Professionals and Employees Association) on the belief that this sector cpuld give an educated intelligent, and strategig, formula for the just, peaceful, and lasting solution to the political problem of the "Bangsamoro" people for self determination. In this study, an explanation based on the historical perpspective is neccessity. It is gather the answer of critical question, especially related to what are te root cause of the "Bangsamoro" political problem. Accrdingly, the Philippine history is replete with many stories of rebellion and seccession. In Mindano alone, the government has been spending time, effort, and resources to contend the armed movements. Beside, the "Bangsamoro" struggle for indepedence has started from 16th to 20th century. In 1968, after the Jabidah Masssacre, MNLF (Moro National Liberation Front) fought against the goverment forces and the violent armed confroontations ended up in the peace talk in tripoli, Libya in 1975. When in 1996, the GRP (Government of the Republic of Philippine)-MNLF Final Peace Agreement was forget, the MILF (Moro Islamic Liberation Front) continues the struggle so that the All-Out War declared by the Estrada administration in year 200 finally, the perpective of the members of MAPEA does not differ from what have already been done to solve the "Bangsamoro" political problems. Just like other organization, they are hofepul that conflict would end. This is a new learning.
