

Current state of Malaysian Book Publishing

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20408163&lokasi=lokal>

Abstrak

Developing countries depend on the knowledge and information produced by industrialised countries just as they depend on same countries for the supply of books. Thus, the Malaysia book market is immersed with imported publications especially from Britain and the United States. But as a multi-racial country comprising Malay, Chinese and Indian population, the book supply is also coming from Hong Kong, Taiwan, India, Indonesian and the Middle East.
