Abstrak

This book constitutes the refereed proceedings of the 6th International Symposium on Intelligence Computation and Applications, ISICA 2012, held in Wuhan, China, in October 2012. The 72 revised full papers presented were carefully reviewed and selected from numerous submissions. The papers are organized in topical sections on artificial life, adaptive behavior, agents, and ant colony optimization, combinatorial and numerical optimization, communications and computer networks, data mining, evolutionary multi-objective and dynamic optimization, intelligent computation, intelligent learning systems, neural networks, and real-world applications.
