

Geomorphology and archeological sites of Bujang Valley area, Malaysia

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20408535&lokasi=lokal>

Abstrak

The aims of this study are to identify the general geomorphology of the areas and correlate it to the archological sites to the past sea levels proved by the studies from some other places in Peninsular Malaysia. Geomorphologically, Bujang Valley area consists of three major geomorphic units. Archeologically, there are three units of landforms which were selected according to their distribution of settlement sites as well as their human activities and cultural heritage.
