Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20408626&lokasi=lokal>

Abstrak

As with the development of the railway, the construction of the train station has an important role in the development of the rail transportation mode. The afford ability and alignment with other modes of transportation are important to consider in its placement in the layout of the city. The placement of Bandung's railway station in the city of Bandung in spatial colonial times is the issue of this paper. The descriptive analytical research methods used to answer this issue. Data were collected through survey and literature studies. The result showed that the placement of Bandung's railway station in the city is very strategic for its location is within easy reach from all parts of the city.
