Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20408772&lokasi=lokal>

Abstrak

This research is aimed at finding out: 1) The type of the most cited documents in each speech script, 2) The source of the cited information, 3) The journal applicability, 4) The age of the literatures used as the reference in the speech script.

The data collecting is done by inventoring the speech titles from the book entitled A Compilation of Scientific Speeches in the 1995-2007 Main Librarian Inaguration. Afterwards, the bibliography of each script is analyzed in accordance to the objectives of the research.
