

Ontologi demokrasi

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20409350&lokasi=lokal>

Abstrak

Conceptually democratic ontology is universal. However in the implementation of democratic ontology is mostly affected by the values of the truth and also the attitude of human being to the others in the society. Consequently on the operational level, democracy under the declarative and oftative perspective is easily changes. It tends to follow the normative language which relates to the meaning of the truth and attitude of the human being obeyed by a certain society.
