

Perencanaan dan pengembangan kawasan pariwisata Bali

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20409757&lokasi=lokal>

Abstrak

Bali is a tourist destination area who has tourism fascination with beautiful natural unique cultures and friendliness peoples. Bali developed cultural tourism which represents especial potency in this tourist destination area. But along journey not all of tourism areas exist in Bali expands without in planning in its management, so that peep out various problems, there are physical, social, cultural, and also environmental problems. If that tourism like development model continued in Bali, hence various problems will emerge and values water source, waste and garbage problems, environment degradation, cultural energy and live Bali society dislocation. Bali as Tourism Island has limitation areas, planning water support mus have planning in its tourism development. With expected also for Bali tourism development earn to have sustainable, for now and next generations. Type of tourism recommended to be developed in Bali that alternative tourism, like ecotourism, culture tourism countryside tourism, nation tourism who its concern with environment and also entangling local society.
