

Global transformation from nation state to market state?

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20410013&lokasi=lokal>

Abstrak

The paper in essence aims to highlight the transformation of state character in Indonesia as a result of globalization. The framework of analysis employed to highlight the transformation is through comparing the concept of nation-state and that of market-state. The paper argues that in terms of character the concept of nation-state has been slowly removed from policy making and in place of it the concept of market-state has gained more currency.
