Abstrak

This book constitutes the proceedings of the 5th International Information Retrieval Facility Conference, IRFC 2012, held in Vienna, Austria, July 2-3, 2012. The 12 papers presented were carefully reviewed and selected from 17 high-quality submissions. IRF conferences wish to bring young researchers into contact with industry at an early stage. This fifth conference aimed to tackle four complementary research areas, information retrieval, machine translations for search solutions, and interactive information access. The papers are organized into topical sections on patent search, web search, applications, and query formulation and analysis.
