These chapters on 'Responsible Leadership' represent the latest thinking on a topic of increasing relevance in a connected world. There are many challenges that still remain when it comes to establishing responsible leadership both in theory and practice. Whilst offering conceptualisations for the improvement of leadership is a first and perhaps easier response, what is more difficult is to facilitate the actual change to happen.

These chapters will not only generate interest in the emerging domain of studies on responsible leadership, but also will pave the way for future research in this area in the years to come.
