

Rethinking social epidemiology : towards a science of change

Patricia O'Campo, editor

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20410686&lokasi=lokal>

Abstrak

This research, in isolation, will not inform effective solutions to health inequalities. Rethinking social epidemiology provides an expanded vision of social epidemiology as a science of change, one that seeks to better address key questions related to both the causes of social inequalities in health (problem-focused research) as well as the implementation of interventions to alleviate conditions of marginalization and poverty (solution-focused research).
