

Growing from seed : an introduction to social forestry

Celeste Lacuna-Richman, author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20410692&lokasi=lokal>

Abstrak

This volume introduces the concepts of social forestry to the student, gives examples of its practice around the world and attempts to anticipate developments in its future. It aims to widen the concept of social forestry from a sub-practice within forestry to a practice that will make forestry relevant in countries where wood production alone is no longer the main reason for keeping land forested, thereby rediscovering and redefining this important topic.
