

Assessing literacy in deaf individuals: neurocognitive measurement and predictors

Donna A. Moreire, editor

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20410706&lokasi=lokal>

Abstrak

This notable book, describes each Toolkit instrument and the psychometric properties it measures. Presents detailed findings on test measures and relationships between skills. Discusses issues and challenges relating to visual representations of English, including fingerspelling and lipreading. Features a factor analysis of the Toolkit measures to identify underlying cognitive structures in deaf learners. Reviews trends in American Sign Language assessment.
