Abstrak

This book presents the recent progress in basic and clinical research in Primary Liver Cancer (PLC) in China and around the world. PLC patients in China make up more than 50% of the total patients worldwide. By contributing to the book, the leading experts in the field of liver cancer in China as well as in the US share with readers their new concepts, practices, and experiences from bench to bed, from population study to individual survey, from molecular search to clinical practice, and from early diagnosis to treatment.
