

BACE : lead target for orchestrated therapy of alzheimer's disease / edited by Varghese John

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20410879&lokasi=lokal>

Abstrak

BACE (β-site of APP cleaving enzyme) is a critical component in Alzheimer's Disease (AD), and the development of BACE inhibitors shows great potential as a therapy for the disease. BACE : lead target for orchestrated therapy of alzheimer's disease covers virtually all aspects of BACE from initial identification, discovery of inhibitors, and challenges in clinical development, while providing a global understanding essential for productive and successful drug discovery.
