

Methods and principles in medicinal chemistry / edited by R. Mannhold, H. Kubinyi, G. Folkers

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20410883&lokasi=lokal>

Abstrak

From the very beginning, the series focused on topical volumes covering hot concepts and technologies, and the reader will not miss any important topic in the field. The range of topics is as diverse as are the challenges facing modern drug developers, spanning the fields of organic chemistry, pharmacology, toxicology, life science, and analytics, the latter also including bioinformatics, chemoinformatics and proteomics.
