Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20412155&lokasi=lokal>

Abstrak

[Separatrix pada Arsitektur membahas mengenai peran dan fungsi separatrix di dalam arsitektur. Separatrix dianggap sebagai makna arsitektur yang sesungguhnya. Separatrix menjadikan suatu arsitektur menjadi beragam dan tidak statis, ia memberikan beragam kemungkinan timbulnya makna baru dalam arsitektur. Pada akhirnya separatrix dapat menciptakan pleasure dalam arsitektur. Penulisan skripsi ini bertujuan untuk mengetahui bagaimana separatrix bekerja terhadap beragam kemungkinan pada arsitektur. Selain itu skripsi ini juga bertujuan untuk memahami peran separatrix dalam memperkaya proses desain arsitektur.

.....Separatrix on Architecture discusses about separatrix role and its function in architecture. Separatrix is considered as the true meaning of architecture. Separatrix makes architecture become diverse and not static, it provides the possibility of new meaning in architecture. In the end, separatrix can create architecture pleasure. The aims of this thesis is to understand how separatrix works towards variety of possibilities on architecture. Moreover, this thesis

aims to understand separatrix roles to architecture design enrichment.;Separatrix on Architecture discusses about separatrix role and its function in
