Abstrak

[Penelitian ini bertujuan untuk mengetahui apakah Free Trade Agreements (FTAs) yang dilakukan Indonesia memiliki gross trade creation terhadap ekspor Tekstil dan Produk Tekstil (TPT) Indonesia, serta menentukan variabel lain yang memengaruhi kinerja ekspor TPT Indonesia. Penelitian ini menggunakan commodity specific gravity model, dengan data panel yang terdiri dari data tahunan dari 2005 hingga 2013, dan 24 negara importir. Berdasarkan hasil penelitian, ditemukan bahwa seluruh FTA memiliki gross trade creation yang cukup signifikan terhadap ekspor komoditas TPT Indonesia, khususnya ACFTA dan AKFTA. Sementara itu, variabel PDB Negara Importir, dan Nilai tukar merupakan beberapa faktor utama penentu kinerja ekspor komoditas TPT Indonesia.;This study aims to determine whether the Indonesia's Free Trade Agreements (FTAs) have gross trade creation to Indonesia's Textiles And Textile Products exports, and to determine other variables that affect Indonesian textile exports performance. This study using the commodity specific gravity model, with a panel data from 2005 until 2013, and 24 importer countries. The result shows that all of the FTAs have a significant gross trade creation effect to the export of Indonesian textile commodities, particularly ACFTA and AKFTA. Meanwhile, Importers GDP, and Exchange Rate are some of the determining factor for the exports performance of Indonesia's textile commodities;This study aims to determine whether the Indonesia's Free Trade Agreements (FTAs) have gross trade creation to Indonesia's Textiles And Textile Products exports, and to determine other variables that affect Indonesian textile exports performance.
