Abstrak

Berdasarkan data BNPB 2012, dampak bencana di Indonesia menyebabkan 75% sekolah berada pada risiko sedang hingga tinggi. Menurut data Kemendikbud tahun 2011, sebanyak 194.884 ruang kelas rusak berat di SD/ SDLB dan SMP/ SMPLB.. Ketidaksiapan komponen sekolah dalam menghadapi peristiwa bencana yang terjadi semakin memperbesar risiko yang mereka alami, oleh karena itu kesiapan keadaan darurat perlu dilakukan di sekolah dasar Pemuda Bangsa Depok, dimana secara geografis Kota Depok merupakan kota yang rawan bencana. Penelitian ini merupakan penelitian deskriptif dengan desain studi kualitatif menggunakan tehnik wawancara mendalam dan observasi yang dilakukan dari bulan Nopember - Juni 2015. Hasil penelitian menunjukkan bahwa SD Pemuda Bangsa Depok belum memiliki kebijakan dan tim khusus tanggap darurat sehingga persiapan mengenai keadaan darurat belum dilaksanakan.
