## Abstrak

### <b>ABSTRAK</b><br>

Penelitian ini berisi tentang pengaruh dari empowerment (psychological, social, political) dan personal economic benefit terhadap resident attitudes pada pariwisata. Hipotesis yang diuji menggunakan data yang diambil dari 186 orang penduduk kota Surakarta melalui survei online dan survei secara langsung.

Dengan menggunakan Structural Equation Modeling metode Maximum Likelihood Estimation, hasil yang didapat adalah terdapat pengaruh signifikan antara dampak negatif dan positif pariwisata terhadap dukungan masyarakat.

Dimana personal economic benefit hanya mempengaruhi dukungan pada pariwisata, psychological empowerment mempengaruhi dampak positif dan dukungan terhadap pariwisata, social empowerment hanya mempengaruhi dampak positif pariwisata, sedangkan political empowerment tidak memberi pengaruh yang signifikan bagi dampak positif, negatif, maupun dukungan terhadap pariwisata.
