Abstrak

[Skripsi menganalisis kegiatan yang dilakukan oleh organisasi nirlaba asal Jepang, e-Education di Waikabubak, Sumba Barat. Analisis terhadap kegiatan terfokus pada perubahan tingkat kesukaan peserta didik terhadap Jepang setelah menjalani rangkaian agenda e-Education. Teori yang digunakan adalah teori kekuasaan oleh Michel Foucault, untuk mengukur ada tidaknya perubahan, peneliti menggunakan Japanese Fondness Point (JFP) Index oleh Noboru Toyoshima. Hasil penelitian menunjukkan bahwa kegiatan yang dilakukan oleh e-Education meningkatkan kesukaan peserta didik terhadap Jepang meskipun hanya 1 poin karena ternyata peserta didik sudah menyukai Jepang sebelumnya. Mereka memiliki pandangan yang baik tentang Jepang saat sebelum adanya kegiatan dari e-Education.;This thesis analyzes the activity of Japanese Non Profit Organization, e-Education at Waikabubak, West Sumba. The Analysis is focus on the shift of Students' fondness level towards Japanese after experiencing e-Education Activity. The shift of fondness level could be known by using Japanese Fondness Point Index by Noboru Toyoshima. The datas, then, are analyzed by using theory of power relation by Michel Foucault. The result shows that e-Education activity in Waikabubak make the student have the shift of fondness level by 1 point. It is caused by the fondness point was previously big enough. they had good image about Japan and Japanese before they experiencing e-Education Activity., This thesis analyzes the activity of Japanese Non Profit Organization, e-Education at Waikabubak, West Sumba.
