Abstrak

Skripsi ini membahas mengenai Putusan Banding sengketa Transfer Pricing atas penjualan bahan baku antara DJP dan PT APS. Pendekatan Analisis Kesebandingan yang berbeda antara DJP dan PT APS menyebabkan perbedaan persepsi dalam menerapkan Metode Transfer Pricing yang menyebabkan koreksi fiskal pada penjualan bahan baku yang sudah dilaporkan. Kurang mendalamnya analisis DGP dalam bisnis dan faktor ekonomi menyebabkan koreksi DGP tidak dapat dipertahankan pada Banding di Pengadilan Pajak. Kurangnya Regulasi Transfer Pricing pada periode tersebut mengharuskan hakim mengacu kepada OECD Transfer Pricing Guidelines dan konvensi internasional lainnya.

<hr>

This thesis discussed about Transfer Pricing Dispute on Appeal Verdict for selling transaction between DGT and PT APS. Different approach on Comparability Analyze between DGT and PT APS caused perceived difference in applying the transfer pricing methods which lead to fiscal correction on the selling transaction which already submitted in Corporate Income Tax Return. The lack of DGT analyze depth on business and economic factor caused DGT's correction cannot be defended in Tax Court. The absence of Transfer Pricing regulation at that period required the judges to consider the OECD Transfer Pricing Guidelines and other international Convention.
