Abstrak

[ABSTRAK

Penelitian ini bertujuan untuk menganalisis hubungan antara corporate governance, profil risiko dan modal (CAR) terhadap kinerja (ROA) perbankan yang terdaftar di Bursa Efek Indonesia periode 2012-2013 dengan skor yang terdapat pada Peraturan Bank Indonesia No. 13/1/PBI/2011 mengenai Risk Based Bank Rating. Metode dalam penelitian ini menggunakan model regresi dengan sampel sebanyak 56 bank yang terdaftar di Bursa Efek Indonesia selama periode 2012- 2013. Penelitian ini menggunakan net interest margin (NIM) dan total asset sebagai variabel kontrol. Hasil penelitian ini membuktikan adanya hubungan yang positif profil risiko dan modal (CAR) terhadap kinerja bank (ROA) dan hubungan yang negatif corporate governance terhadap kinerja bank (ROA).
