Abstrak

[<b>ABSTRAK</b><br>

Tesis ini bertujuan mengungkap dampak kapitalisme baru terhadap jurnalisme online. Kapitalisme baru dibangun dengan logika jangka pendek, yaitu proses harus berlangsung dengan cepat untuk mendapatkan keuntungan. Penelitian ini menggunakan paradigma kritis dan studi kasus sebagai strategi penelitiannya. Data dikumpulkan melalui wawancara, observasi, dan analisis berita. Metode analisis data, yaitu logika jangka pendek milik Richard Sennett. Determinasi teknologi mendorong perusahaan terus berubah sehingga memunculkan ketidakgunaan dan politik konsumsi yang menempatkan berita sebagai komoditas. Jurnalisme jangka pendek ditandai dengan berita ringkas, stripping, sensasional, berbagi konten, topik terhangat, dan viewers. Logika jangka pendek mengembalikan jurnalisme kuning ke media baru dan mengeksploitasi wartawan.
