[ABSTRAK

Tujuan dari program intervensi ini adalah untuk meningkatkan motivasi berprestasi pada remaja di Kawasan Wisata Puncak. Meningkatnya motivasi berprestasi diharapkan menjadi upaya untuk membentuk remaja agar dapat belajar merancang masa depan dan berperan sebagai kelompok yang mampu meningkatkan kualitas hidup masyarakat Puncak. Intervensi dilakukan melalui Pelatihan Motivasi Berprestasi dengan menggunakan metode eksperimen. Eksperimen yang dilakukan menggunakan desain one group pre-test and post-test design. Pelatihan dilakukan dalam lima sesi selama satu hari dan diikuti oleh lima belas siswa kelas IX SMP PGRI 207. Melalui program intervensi yang dilakukan, terjadi peningkatan motivasi berprestasi yang signifikan pada uji wilcoxon signed-rank test ($p = 0.002$, $Los p < 0.05$). Selain itu, mereka juga dapat menyusun target di masa depan serta langkah untuk mencapainya.
