

Perlindungan hukum terhadap konten digital yang di hosting pada perusahaan penyedia jasa layanan web hosting = Legal protection for digital content placed on web hosting service providers

RM Agung Setiawan, author

Deskripsi Lengkap: <https://lib.ui.ac.id/detail?id=20414985&lokasi=lokal>

Abstrak

[Penempatan konten digital yang kaya informasi didalam lingkungan komunikasi tanpa batas atau internet, memungkinkan informasi menjadi lebih mudah diakses. Namun terdapat prosedur, aturan dan etika dalam memanfaatkan konten digital. Karena pemanfaatan konten digital oleh pihak yang tidak bertanggungjawab dapat mengarah kepada pelanggaran hak cipta. Oleh karena itu diperlukannya kebijakan perlindungan konten digital. All rights reserved dan some rights reserved merupakan bentuk dari perlindungan hak cipta. Sebuah situs yang memuat konten ilegal seperti pelanggaran hak cipta akan diblokir oleh pihak yang berwenang, namun dalam hal pemblokiran sebuah situs karena dianggap memuat konten yang ilegal memerlukan prosedur dan aturan tepat. Indonesia belum memiliki pengaturan mengenai tanggung jawab penyelenggara jasa hosting terkait dengan pelanggaran hak cipta terhadap konten digital milik pengguna. Penelitian ini mencoba menjelaskan perlindungan hukum terhadap konten digital yang di-hosting pada perusahaan penyedia jasa layanan web hosting dan bagaimana tanggung jawab hukum penyedia jasa hosting terhadap konten digital milik konsumen;Placing digital content into the internet enables information become more

accessible. However, there are procedures, rules and ethics when using digital content. The use of digital content by parties who are not responsible can lead to copyright infringement. Hence the need for digital content protection policies. All rights reserved and some rights reserved is a form of copyright protection.

A site containing illegal content such as copyright infringement will be blocked by the authorities, but blocking a website requires proper procedures and rules.

Indonesia does not have regulation regarding the responsibility of hosting service providers related to copyright infringement. This research tries to explain the legal protection of digital content placed on web hosting service providers and how the legal responsibility of hosting service providers against consumer's digital content, Placing digital content into the internet enables information become more accessible.
