Abstrak

[ABSTRAK

Tesis ini membahas mengenai hubungan bisnis dan politik dalam kebijakan pengelolaan sumber daya air. Dengan kasus pemanfaatansumber air Sigedang Kabupaten Klaten oleh PT. Tirta Investama-Danone. Tujuan penelitian ini adalah untuk menjelaskan relasi bisnis dan politik penguasa dengan pengusaha di tingkat Kabupaten Klaten yang mempengaruhi pengelolaan sumber air Sigedang. Penelitian ini akan menjelaskan sebab akibat bekerjanya hubungan bisnis dan politik penguasa dengan pengusaha sebagai dasar dari keputusan penyerahan aset Sigedang kepada PT. Tirta Investama-Danone. Hasil penelitian menunjukkan pengaruh terbesar dari proses pengalihan aset sumber air Sigedang kepada PT.Tirta Investama-Danone adalah hubungan bisnis dan politik antara perusahaan dengan elit politik di Kabupaten Klaten pada tingkat eksekutif, legislatif, dan pemerintahan desa. Gerakan penolakan dilakukan oleh petani melalui Koalisi Rakyat Klaten Untuk Keadilan yang mendapat dukungan kelompok birokrat reformis, namun gerakan tersebut tetap masih belum mampu mencapai tujuannya yaitu kajian ulang terhadap keputusan pengalihan aset sumber air Sigedang.

Berdasarkan hasil penelitian maka implikasi teori memperlihatkan bekerjanya hubungan bisnis dan politik antara perusahaan dengan penguasa didasarkan pada pencapaian kepentingan pribadi dari kedua belah pihak. Hubungan bisnis dan politik yang berpusat pada Bupati dan perusahaan akhirnya ?menyandera? pemerintah yang tidak dapat bersikap tegas atas masalah ini. Hal ini sesuai dengan tujuan kelompok bisnis yang berupaya ?menyandera? birokrasi dalam bekerjanya pihak swasta pada sebuah kebijakan pemerintah.

ABSTRACT

This thesis discusses the relations of business and politics in water resources management policy in the case of Water Source Utilization in Klaten by PT. Tirta Investama-Danone. The purpose of this study is to explain political relations of rulers with business people in Klaten which influenced the management of Sigedang water source in Klaten. This study describes the causes and effects of the relations between rulers and businesspeople in making decision to hand the assets of Sigedang to PT. Tirta Investama-Danone. The result of the study shows that the process of transferring the assets of Sigedang water source to PT.Tirta Investama-Danone was

strongly affected by the relations between business people and political elites in Klaten at executive, legislative, and village government levels. The protest by farmers through Coalition of People of Klaten for Justice (KRAKED) received a lot of support from reformist bureaucracy group, but it was still unsuccessful to review the decision to transfer the assets of Sigedang water source.

Based on the analysis, this study also theoretically implied that business and political relations between the company and rulers worked based on fulfillment of personal interests of both parties. Business and political relations which centered on the Regent and the company eventually keeps the government unable to make decision on this issue. This is consistent with business goal to keeps the bureaucracy in the work of private parties in a government policy; This thesis discusses the relations of business and politics in water resources
