[ABSTRAK

Tesis ini membahas hasil penelitian tentang peran pelaksanaan manajemen sekuriti fisik di PT Pertamina EP Asset 3 Tambun Field ? Bekasi. Penelitian ini dilakukan dengan pendekatan kualitatif yang bersumber dari data primer dan sekunder dengan metode pengumpulan data dilakukan dengan cara observasi, wawancara dan studi dokumentasi.

Hasil penelitian menunjukkan bahwa pelaksanaan manajemen sekuriti fisik yang dilakukan oleh PT Pertamina EP Asset 3 Tambun Field adalah dengan menggunakan tenaga pengamanan yang berasal dari perusahaan jasa outsourcing PT Satria Mocoginta. Para tenaga pengamanan tersebut pada umumnya merupakan warga masyarakat sekitar. Namun demikian dalam prakteknya, pelaksanaan manajemen sekuriti fisik yang dilakukan oleh para tenaga pengamanan tersebut ternyata menjadikan sebagai suatu gangguan keamanan, karena mereka melakukan kerja sambilan dengan cara memanfaatkan wewenang yang dimilikinya yakni dengan cara meminta sejumlah uang kepada para kontraktor yang melakukan pemeliharaan dan perawatan terhadap genset dan pompa di setiap cluster milik PT Pertamina EP Asset 3 Tambun Field. Bahkan seringkali mereka membawa pipa-pipa bekas maupun baru milik para kontraktor ketika dilakukan pemeliharaan dan pergantian pipa.

Untuk mencegah agar tidak terjadi lagi gangguan keamanan di kawasan PT Pertamina EP Asset 3 Tambun Field terutama gangguan keamanan dalam suatu cluster, maka beberapa upaya yang dilakukan oleh pihak PT Pertamina EP Asset 3 Tambun Field adalah: (1) Membuat klasusul perjanjian yang baru dengan para kontraktor dan selalu berkoordinasi dengan Polsek Babelan untuk menempatkan beberapa anggota Bhabinkamtibmas di sekitar kawasan tersebut; (2) Mengevaluasi model penyeleng-garaan manajemen sekuriti fisik yang saat ini dilakukan; (3) Berkoordinasi dengan pihak Polsek Babelan agar kegiatan pendidikan dan pelatihan terhadap Satpam Garda Pratama yang telah berhasil dilaksanakan oleh Polsek Babelan, rutin setiap tahun dilakukan; dan (4) Meningkatkan program CSR yang saat ini telah diberikan terhadap lingkungan sekitarnya.

ABSTRACT

This thesis discusses the results of research on the role of physical security management implementation at PT Pertamina EP Asset 3 Tambun Field - Bekasi.

This research was conducted with a qualitative approach derived from primary and secondary data by the method of data collection done by observation, interview and documentation study.

The results showed that the implementation of physical security management conducted by PT Pertamina SP Tambun is to use the power of security that comes from outsourcing services company PT Satria Mocoginta. The security personnel are generally the residents of surrounding communities. However, in practice, the implementation of physical security management performed by the security personnel turned out to make as a security breach, because they do odd jobs in a manner that utilizes its authority by asking some money to the contractors who carry out the maintenance and care of the genset and pump in each cluster belonging to PT Pertamina EP Tambun. Often they bring pipes belonging to the former and new contractors when performed maintenance and replacement pipes. The implementation of physical security management is done in PT Pertamina EP Asset 3 Tambun Field has deviated from the concept of physical security management activities in general, the Polsek Babelan perform Basic Education and Training Security guard Garda Pratama held at the end of 2014. This form of education and training of the guard base aimed at residents who were around Pertamina EP Asset 3 Tambun Field, and without cost you a dime, even the participants get uniforms complete with boots and other equipment.

To prevent this from happening again in the area of security disturbances PT Pertamina EP 3 Asset 3 Tambun Field especially security problems in a cluster, then some of the efforts made by the PT Pertamina EP Asset 3 Tambun Field are: (1) Make klausul new agreements with contractors and always coordinate with the police Babelan to put some members Bhabinkamtibmas around the region; (2) Evaluate the model of management of physical security that is currently carried out; (3) Coordinate with the Polsek Babelan education and training in order to guard Garda Pratama that have been successfully implemented by the Polsek Babelan, annually conducted; and (4) Enhance CSR program, which has been given to the surrounding environment., This thesis discusses the results of research on the role of physical security management implementation at PT Pertamina EP Asset 3 Tambun Field - Bekasi.
