Abstrak

[ABSTRAK

Tesis ini membahas penyelenggaraan manajemen sekuriti fisik pada PT Gaya Motor yang terletak di Sunter, Jakarta Utara. Sebagai upaya melindungi asset perusahaan khususnya dalam kegiatan perakitan kendaraan bermotor yang dimana bila terjadi kehilangan satu suku cadang saja dapat menyebabkan kerugian yang fatal di masa depan. Menyikapi permasalahan tersebut, penulis ingin mengetahui bagaimana pelaksanaan sistem manajemen keamanan fisik yang berlangsung di PT Gaya Motor serta kelebihan dan kekurangan dari sistem tersebut.

Penelitian ini menguraikan analisis sistem pengamanan perakitan kendaraan di PT. Gaya Motor yang terjadi berdasarkan teori dan konsep yang ada dengan menggunakan metode penelitian kualitatif ditambah dengan temuan hasil penelitian yang didapat oleh peneliti saat melakukan wawancara, observasi dan dokumentasi langsung produksi perakitan kendaraan PT. Gaya Motor di Jl. Gaya Motor Raya, Sunter II Jakarta.

Konsep sekuriti dengan penyelenggaraan manajemen sekuriti fisik di PT. Gaya Motor bertujuan mengamankan aset untuk menghilangkan ancaman dan kerugian. Dari insiden yang ada maka perlu untuk mengidentifikasi kendala-kendala yang terjadi. Hal ini dengan melakukan Melakukan pemetaan (mapping) terhadap kasus-kasus yang terjadi di lingkungan PT.Gaya Motor, melakukan interogasi atau wawancara dengan beberapa karyawan terkait yang berhubungan dengan pekerjaan dan melakukan evaluasi terhadap pola/ system keamanan yang sedang berlangsung apakah masih relevan atau sesuai dengan beberapa kasus yang terjadi.
