Abstrak

[<b>ABSTRAK</b><br>

Penelitian ini memiliki tujuan umum yaitu menganalisis gaya kepemimpinan situasional pada level pengawas di PT. LCI khususnya pada proyek LTJO?The New AEJ. Sehingga, dapat menjadi dasar pertimbangan dalam meningkatkan peran kepemimpinan keselamatan di sektor konstruksi serta penerapan program Strive For L.I.F.E leadership. Penelitian ini menggunakan desain penelitian kualitatif dengan jenis penelitian Rapid Assessment Procedures (RAP), yaitu teknik pengumpulan data kualitatif untuk memperoleh gambaran atau informasi yang mendalam tentang gaya kepemimpinan situasional pada level pengawas dalam penerapan program Strive For L.I.F.E leadership di PT. LCI pada proyek LTJO?The New AEJ secara cepat. Berdasarkan hasil penelitian yang dilakukan untuk menganalisis gaya kepemimpinan situasional pada level pengawas terhadap perilaku keselamatan pekerja konstruksi dalam penerapan program Strive For L.I.F.E leadership di PT. LCI khususnya pada proyek LTJO-The New AEJ tahun 2015, yaitu gaya kepemimpinan mengarahkan (directing) dan gaya kepemimpinan mendelegasikan (delegating).
