### Abstrak

[<b> ABSTRAK</b><br> Penelitian ini bertujuan untuk mengeksplorasi penerimaan wanita muda Indonesia terhadap

seks pranikah dan kehamilan remaja. Penulis menggunakan film berjudul "Love Rosie" sebagai studi kasus, untuk melihat bagaimana mereka memandang pesan melalui konsep encoding - decoding. Metode yang digunakan dalam penelitian ini adalah wawancara mendalam dengan tiga responden yang belajar di luar negeri dengan berbagai latar belakang, yang telah menyaksikan film sebelum wawancara. Studi ini menemukan bahwa orang yang belajar di negara barat mereka cenderung bernegosiasi dalam mempersepsikan masalah dan memiliki pemikiran yang terbuka terhadap isu-isu sensitif.;<hr>

<b>ABSTRACT</b><b> This study aims to explore Indonesian young women reception towards premarital sex and

teen pregnancy. The writer used the movie called "Love Rosie" as the study case, to examine how they perceive the message through encoding-decoding concept. The method that is utilized in this research is in-depth interview with three respondents whose study abroad with various background, who have watched the movie prior to the interview. This study finds that people who study in western country have open minded towards sensitive issues and they tend to be negotiated in perceiving the issues., This study aims to explore Indonesian young women reception towards premarital sex and
